

K-LOve is a very important station to myself and the entire community. K-Love allows us to hear positive uplifting christian music as we go throughout the day. When things get rough I know I can escape the pressures of life by just turning on K-Love. Sioux Falls is a very small community, yet we host one of the largest free christian music festivals here. K-Love has strongly supported the festival and has sent their two morning announcers here to broadcast live from the festival. Our entire community has benefited by K-Love and this festival by the positive influence it has had in lives as well as the financial impact of having 250,000 people come to the festival. Please keep K-Love on the air - do not allow the LPFM stations to take priority.
